Quaker Hill Octo: 3: 1778

Dear General

I was honored with your Excellency's favor of yesterday, late the last evening. I immediately gave orders that a party from each Brigade in my Division should this morning be marched to repair the roads, as mentioned in your letter - and to prevent their interfering one with the other & with the party which should be ordered by General McDougal I have assigned to each, of mine, a district and have given the General notice of it.

I have sent a Major to superintend the whole & have ordered on tools & provision

Part of my letter of yesterday will be an answer to the next paragraph of yours.

I am happy to hear that the Packet is arrived and hope that your Excellency will now be able to penetrate the designs of the enemy & that you will be relieved from that painfull suspence in which you have been involved for some time past

I have the honor to be
Dear General with the
greatest affection
your most obedient
humble servant
H Knox
